Short description:

Simple Wall and Table Clock with generated structure.

Description:

<p>Simple Wall and Table Clock with generated structure. Appearance is generated by slicer as the top shell must be set to 0. Actually final look of the clock is up to you and your preference on style and percentage of the fill.

It feature hook as well as stand (stand is in separate model)

We recommend 3 perimeters and 15% fill honeycomb. But you can try archimedean chords or rectilinear. They also look good.

Designed by Martin Žampach - Creative Director of Be3D.cz
